

Our simple, healthy menu features delicious soups, salads, sandwiches and omelets with as much of the food as possible supplied by what we grow less than a mile away on our Cultivate Hope Urban Farm and in our on-site hydroponic garden. The rest of the food is sourced from local and organic suppliers. In addition to healthy local food, we also serve a selection of fair trade coffee and teas.

The Groundswell Café is an initiative of local nonprofit organization Matthew 25. It helps carry out Matthew 25's mission of empowering people to transform neighborhoods by connecting people socially, reducing food insecurity, and providing a healthy eating opportunity in a neighborhood where more than ninety percent of our elementary students receive free or reduced lunches.

This cafe wouldn't be possible without the support of donors and volunteers. If you're interested in making a contribution or volunteering your time, talk to one of the staff members or contact us at info@hub25.org or 319-362-2214.

A Pay-it-Forward Eatery

The concept is simple: create a café where everyone eats healthy food because everyone shares. It's an ancient tradition that goes back to the earliest people. If a person had the gift of being able to go out and gather food, they would bring it back to share with the entire village. Though the way we "gather" food and live in "villages" has changed, sharing for the good of the community is still important.

So if you can give extra, please add to our Pay-it-Forward Fund. If you need a little help paying for your meal, the generosity of others has you covered.

If you want to take this further, sit at our community table and take the risk of striking up a conversation with someone you don't know. We are all about community!
